

CALL FOR PROPOSALS

EaPEC 2017

2ND EASTERN PARTNERSHIP
E-INFRASTRUCTURE
CONFERENCE

WWW.EAPEC.EU

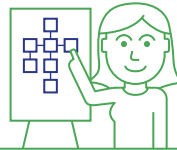

LIGHTNING TALKS & POSTERS

Lightning talks are strictly-timed 5-minute presentations that provide an opportunity for new ideas and for community newcomers to gain visibility. Lightning talks are a great way to show work in progress or to demonstrate a new tool or technique. Lightning talk presenters are asked to also present a complementary poster to provide additional information.

POSTERS ONLY

Posters will be displayed in the conference exhibition area, where presenters will have opportunities to explain their work to EaPEC participants, to make new contacts and to gain feedback on their work and ideas.

HOW TO SUBMIT YOUR IDEAS

All proposals for EaPEC 2017 posters and lightning talks should be prepared as 300-word abstracts using the provided MS Word template, and should be submitted to: submit_eap@geant.org

Although you may submit more than one topic for consideration, for each topic that you submit you should please indicate whether it would be presented as a poster only, or as a lightning talk with a poster.

Topics of interest include, but are not limited to, the following: E-Infrastructure Applications, Open Science, Research Data Management, Big Data & Deep Learning, Data Science, Cultural Heritage Digitisation, High-Performance Computing, e-Science.

SELECTION

Abstracts will be evaluated by the Lightning Talks and Posters Chair(s) with respect to their relevance to EaPEC's audience and the availability of space in the conference program. Abstracts will not receive peer-review feedback. Accepted abstracts will be made available on the conference website prior to the event.

Policy makers, researchers, students and experts on networking, cultural heritage, and high-performance computing for research and education are invited to submit proposals for Posters and Lightning Talks for the 2nd Eastern Partnership E-infrastructure Conference, EaPEC 2017.

Organised by the Eastern Partnership Connect (EaPConnect) project, EaPEC 2017 will be hosted by UIIP NASB (BASNET) in Minsk, Belarus, on 27-28 September 2017. Posters and Lightning Talks are new ways for EaPEC participants to share early results, get feedback on work in progress, find new collaborators from other institutions, and spark conference discussions.
