CONFERENCES

LIGHTNING TALKS

Lightning talks are 5-minute presentations that give visibility to new ideas and community newcomers. These talks are a great way to show how your organisation deals with e-infrastructures or international research collaborations.

POSTERS & DEMOS

You can present a poster at EaPEC 2019 to explain your work, make new contacts and gain feedback on your ideas. Or you can demonstrate an interesting tool, technology or solution. All posters and demonstrations will be shown in the exhibition area.

TOPICS & HOW TO SUBMIT YOUR IDEAS

All proposals for EaPEC 2019 posters and lightning talks should be prepared as 300-word abstracts using the provided MS Word template: <https://bit.ly/EaPEC-template>

Although you may submit more than one topic, for each topic that you submit you should indicate whether it would be presented as a poster or lightning talk only, as a poster with a lightning talk, or as a demonstration.

Topics of interest include, but are not limited to, the following: e-Infrastructure Applications, Open Science, Cybersecurity, Machine Learning and AI, Cloud or IaaS, Digital Libraries & Cultural Heritage Digitisation, e-Science.

Deadline: 31 July 2019. Send to: submit_eap@geant.org.

SELECTION

Submissions will be evaluated with respect to their relevance to EaPEC's audience and the availability of time slots in the conference programme. Abstracts will not receive peer-review feedback. Accepted abstracts will be made available on the conference website prior to the event.

Funding is available to reimburse travel costs for lightning talk presenters.

Policy makers, researchers, experts on networking, cultural heritage and high-performance computing for research and education are invited to submit proposals for posters, demonstrations and lightning talks for the 4th Eastern Partnership E-infrastructures Conference, EaPEC 2019.

Organised by the Eastern Partnership Connect (EaPConnect) project, EaPEC 2019 will be hosted by IIAP NAS RA (ASNET-AM) in Yerevan, Armenia, on 25-26 September 2019.

Posters, lightning talks and demonstrations are great ways for EaPEC participants to share early results, get feedback on shared ideas, find new collaborators from other institutions, and spark conference discussion.
